**JADOO POWER TO INTRODUCE FUEL CELL PRODUCTS  
FOR PROSUMERS AT CES**

**Jadoo NAB<sup>II</sup> Fuel Cells for Hobbyists, Mobile Responders, Law Enforcement  
and other “Off-Grid” Critical Power Situations**

FOLSOM, CA – December 29, 2005 -- **Jadoo Power Systems Inc.** (<http://www.jadoopower.com>), the leading supplier of portable fuel cell power systems, announced today that it will be introducing its line of **fuel cell products for prosumers** at next week’s ShowStoppers event at the Consumer Electronics Show (CES) 2006 in Las Vegas.

Primarily shipping to the professional broadcasting market for the past two years, Jadoo Power will introduce the **NAB<sup>II</sup> power unit, N-Stor<sup>TM</sup> fuel canister and FillPoint<sup>TM</sup> refill station** for a variety of new applications, including **field-ready laptops, emergency response radios and other equipment used in “off-grid” power situations, as well as professional broadcast cameras.**

Advantages of the NAB<sup>II</sup> fuel cell technology:

- Virtually **infinite shelf-life** compared to batteries
- **Hot-Swap** capable, so power never goes down like when replacing batteries
- **Rapid refill/recharge time** with the FillPoint
- Patented digital interface for State-of-Fill and other fuel management data
- Packaged in an **easy-to-understand, easy-to-use** solution.

“Commercialization has been priority number one for Jadoo and we are excited about bringing our tried and true technology to these new prosumer markets,” said Jack Peterson, Vice President of Sales and Marketing, Jadoo Power. “It is clear to Jadoo that the applications for a durable, reliable ‘off-grid’ fuel cell power source are many. That is why we are introducing the NAB<sup>II</sup>, N-Stor<sup>TM</sup> fuel canister and FillPoint<sup>TM</sup> refill station to the prosumer electronics market here at CES.”

**About Jadoo Power Systems**
