**SECRETARY OF ENERGY APPOINTS JADOO POWER
TO HYDROGEN TECHNICAL ADVISORY COMMITTEE**

Jadoo Power President and CEO Selected From More than 100 Submitted Nominees

FOLSOM, CA – June 27, 2006 -- **Jadoo Power Systems Inc.** (Jadoo) www.jadoolpower.com, the leading supplier of portable fuel cell power systems, announced today that **Jadoo Power President and CEO Larry Bawden** has been appointed to the recently formed Hydrogen and Fuel Cell Technical Advisory Committee (HTAC). HTAC was formed in accordance with the 2005 Energy Policy Act as a key component of President Bush's Advanced Energy Initiative.

As one of 25 committee members, selected from over 100 submitted nominees, Bawden will be asked to give recommendations to the Secretary of Energy regarding Department of Energy's (DOE) programs, plans and activities, as well as regulatory, economic and environmental issues related to the commercialization of hydrogen-based fuel cell products.

"It is an honor to be selected as a representative on the HTAC. The success of the Hydrogen Economy will be measured in steps," said Larry Bawden, President and CEO, Jadoo Power. "We believe one of the first steps is designing, manufacturing and selling usable fuel cells to consumers today; thus demonstrating what will be available on a larger scale in the future."

Following the Energy Policy Act of 2005 guidelines, DOE will deliver a biennial report to Congress containing committee recommendations, providing rationale for the recommendations and describing how DOE will implement those recommendations that are chosen.

Members will elect a chairperson at their first meeting to be held in the coming months and will meet approximately twice per year. Meetings will be announced in the Federal Register.

About Jadoo Power Systems

www.jadoolpower.com

Jadoo Power Systems, Inc. is a market-focused company that develops and sells next-generation, portable energy storage and power generation products. Jadoo is financed by Mohr Davidow Ventures, Venrock Associates and Sinclair Ventures, a wholly owned subsidiary of Sinclair Broadcast Group, Inc.
