

# Jadoo Power— HOMELAND SECURITY

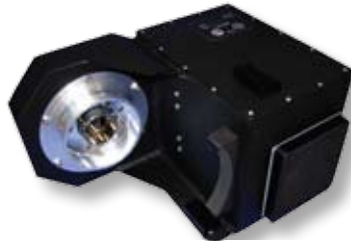

more power,  
more possibilities.™

Military and homeland security operations are dependent on portable and reliable power that can be carried into the field, transported to remote areas, stand up to challenging weather conditions, and meet a wide range of power needs.

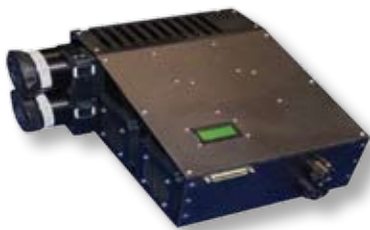

Jadoo Power works with many military and security programs and delivers on these challenges. We provide portable and mobile power solutions for field communications, robotics, ground sensors, border patrol, unmanned aerial vehicles (UAV), unmanned ground vehicles (UGV) and more.

Medical Rescue  
and Transport

The PPS Power Unit—  
100 W Classified use
